

# Typesetting 4.0

## Simple configuration, cost-effective automation.

The metiTec typesetting system offers fully-automated, cost-effective solutions for a wide range of publications from journals and books to catalogues and previews in a one-step process.

metiTec typesets texts for multiple channels and formats (HTML, EPUB, XML and online shops) as well as print publications. This enables you to simultaneously publish the same content across multiple channels at the push of a button, even for media-specific content.

## From Word Doc to publication in no time at all: that's typesetting 4.0

What is more, metiTec's typesetting system can extract metadata and archive your data in a media-neutral format.

Have we sparked your interest in our fully-automated typesetting system? Let us show you how metiTec can benefit your business via our business cases. me-ti's Business Case Calculator (BCC) can also demonstrate how quickly your investment will pay off.

With metiTec, your business data is ready to use whenever you need it, saving you time and money.

metiTec: taking your business data into a media-neutral future.
